ARBITRATION PLEDGE

HFW is delighted to have signed up to and support the Equal Representation in Arbitration Pledge, an initiative involving a growing number of well-known organisations and individuals from the arbitration community who are committed to improving the profile and representation of women in arbitration.

By signing, we have agreed to ensure that, among other things, wherever possible:

- Lists of potential arbitrators include a fair representation of female candidates.
- Where they have power to do so counsel, arbitrators, parties, and arbitral institutions appoint a fair representation of female arbitrators.
- That senior and experienced arbitration practitioners support and encourage women to pursue arbitrator appointments and enhance their profiles.

Organisations who have signed include a number of our clients, various sets of barristers' chambers, law firms practising in international arbitration and Arbitration Institutions (for example the LCIA, SIAC).
